How we can help you

We offer you a wide range of consulting, planning, products, implementation and services to help you

- ensure compliance with regulations and industry standards,
- reduce business risk through effective threat detection & response,
- have local support globally (for example in China),
- decrease time wasted on false alerts and improve response to real incidents,
- determin real security weaknesses to invest effectively,
- secure digital assets and brand image,
- protect industrial environments from cyber threats,
- master the complexity of multi-cloud security,
- get a higher security value out of your budget.

We are pleased to inform you of a significant milestone in our development. On July 23, 2025, Orange Cyberdefense acquired Ensec, a leading player in the field of cybersecurity in the German-speaking part of Switzerland.

This acquisition strengthens our presence in Switzerland, particularly in the German-speaking region, and allows us to offer services that are closer to your needs with enhanced local expertise. Ensec, with its 40 highly qualified specialists in consulting, cybersecurity solutions integration, and tailored security management, helps solidify our position as a European leader in IT infrastructure and cybersecurity.

We believe this collaboration will bring significant added value to our services and enhance our ability to protect your organization against digital threats!
